

# Concept Of 4 Hole Multi Spindle for Hole Diameter 20mm with Drill JIG

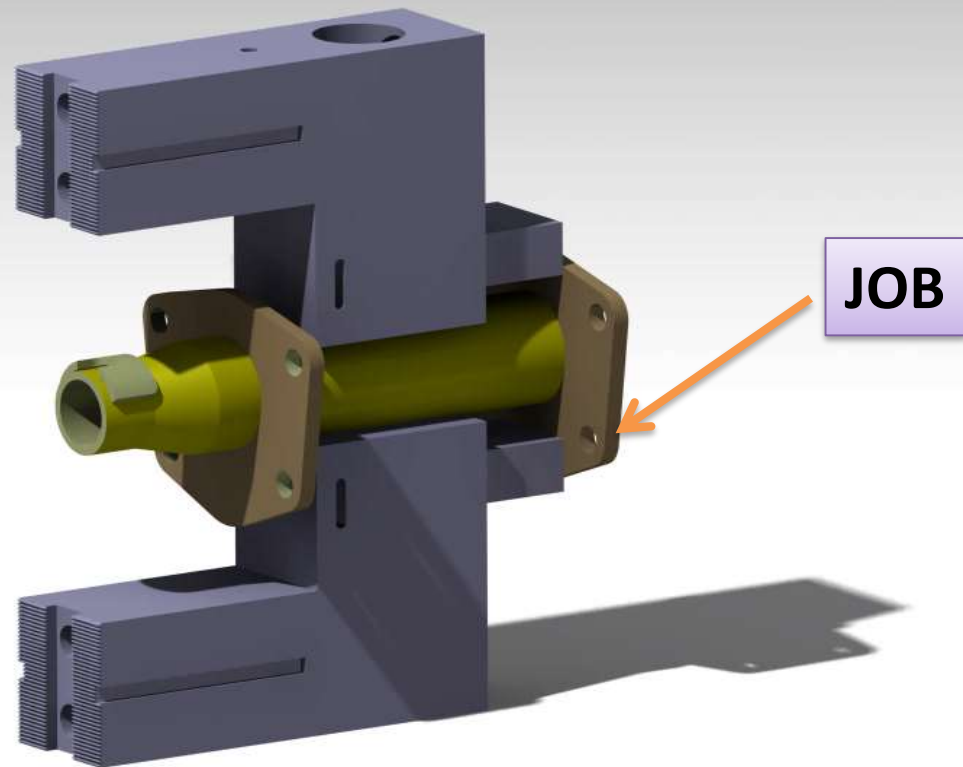

## 5 hole Multispindle for Drill Diameter 10.5mm with Drill Jig

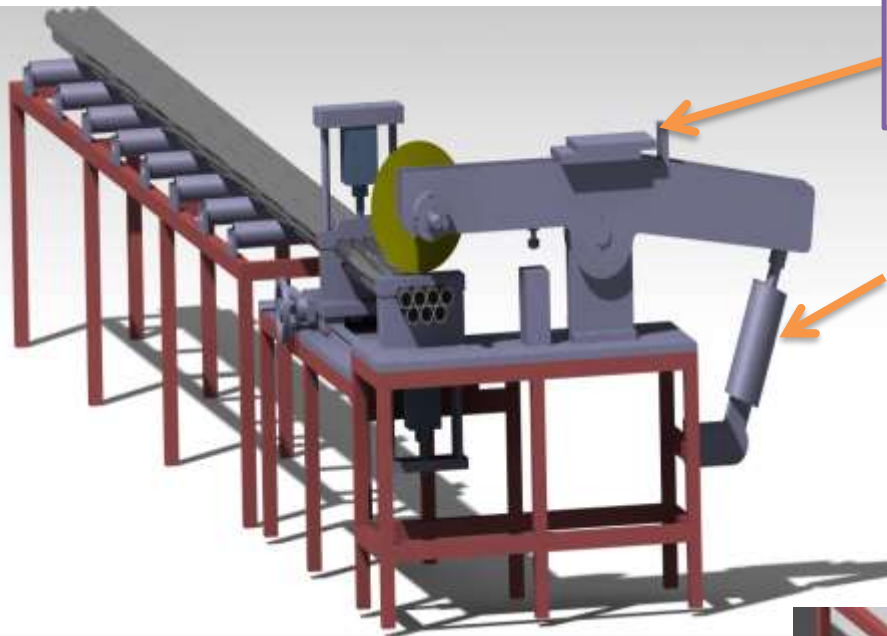

# Band Saw Machine for Eicher Tractor Drawbar Flat Cutting With Dovetail Slide

# Indexing Jaw For CNC to Rotate the JOB Without De-clamping it for Machining

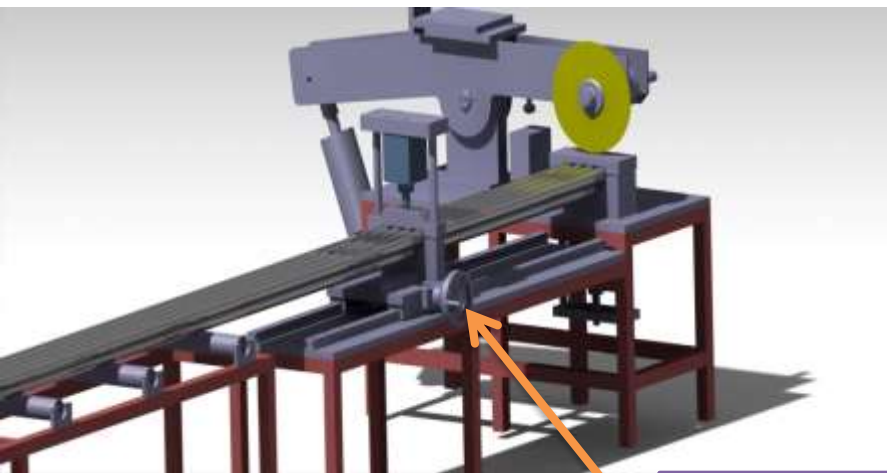

# Pipe Cutting Machine

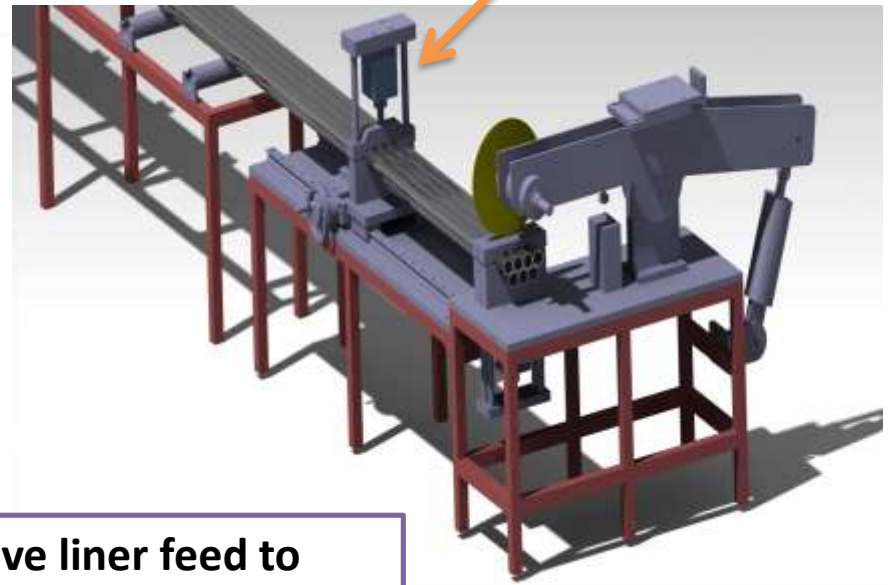

We will mount Gear Box & Motor on plate

Hydraulic Cylinder to give the Feed to cutter

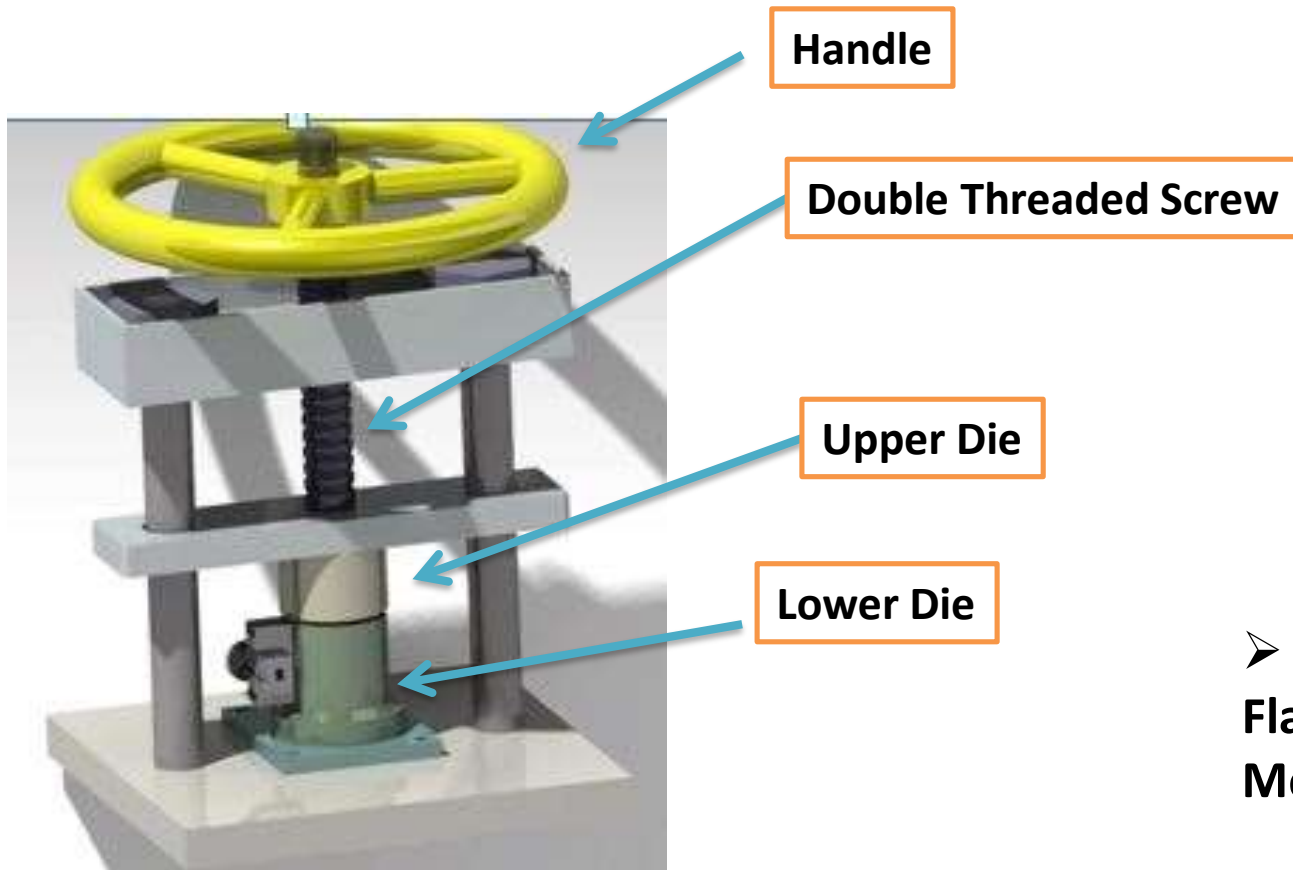

Pneumatic cylinder for clamping

Handle to give liner feed to pipe to pipe forward or reverse direction

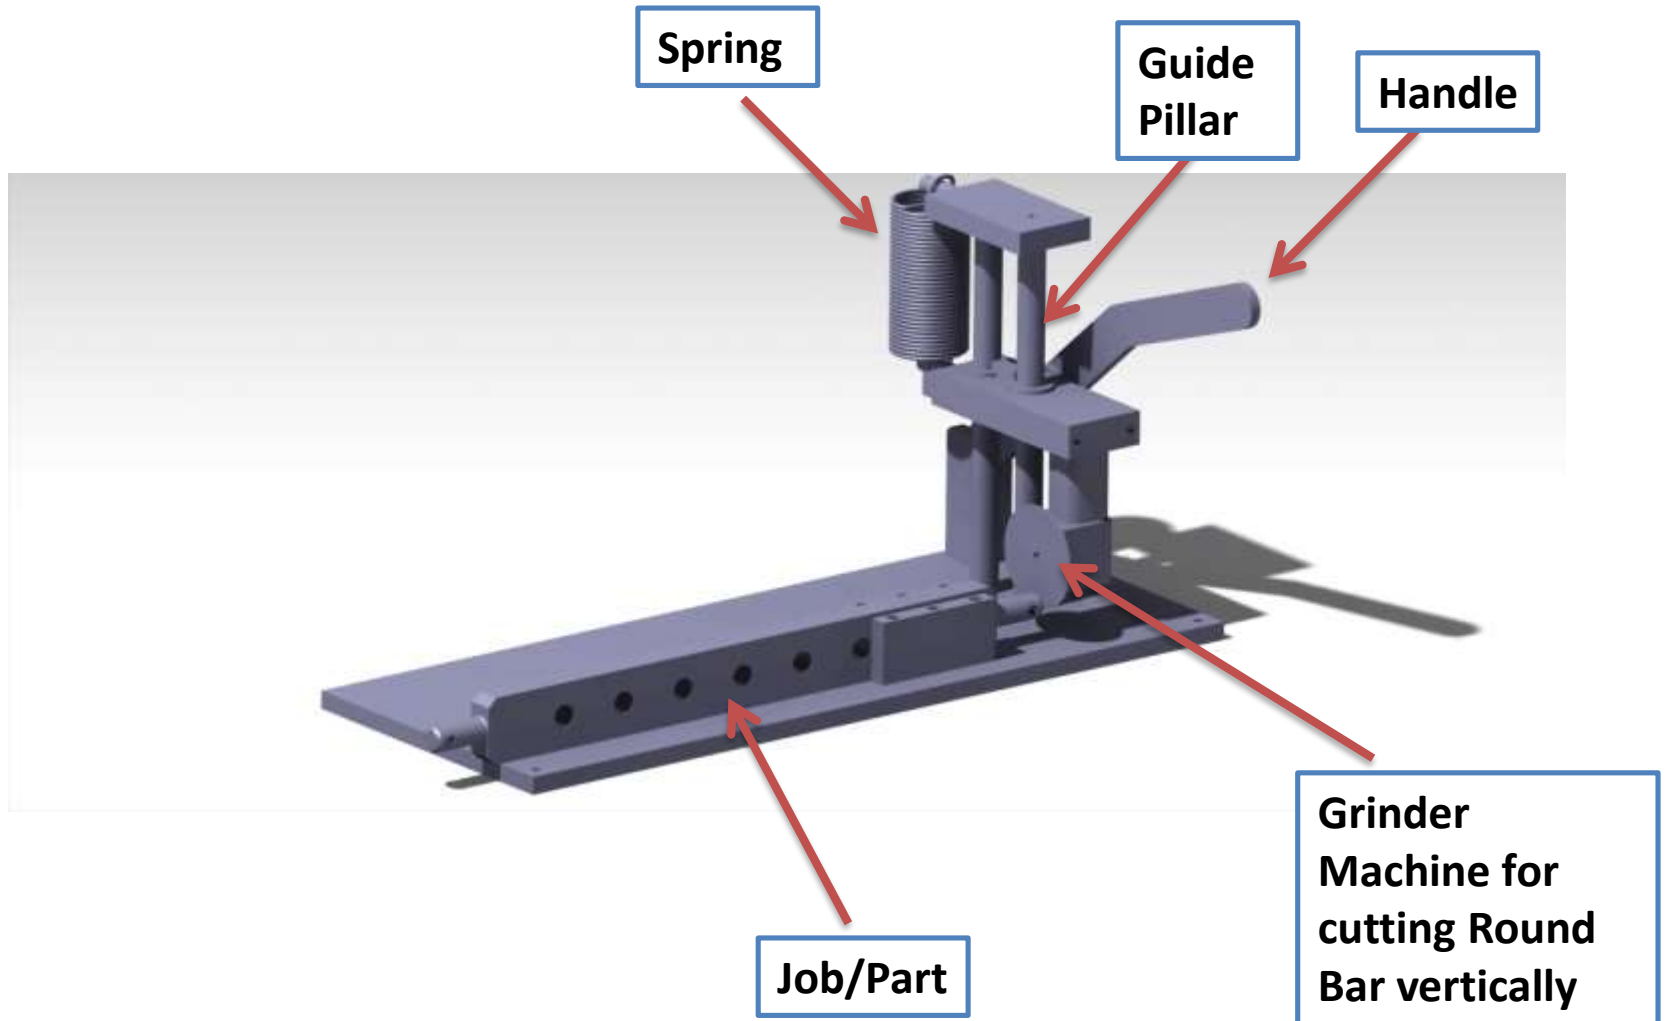

# Mechanical Press For Straightening

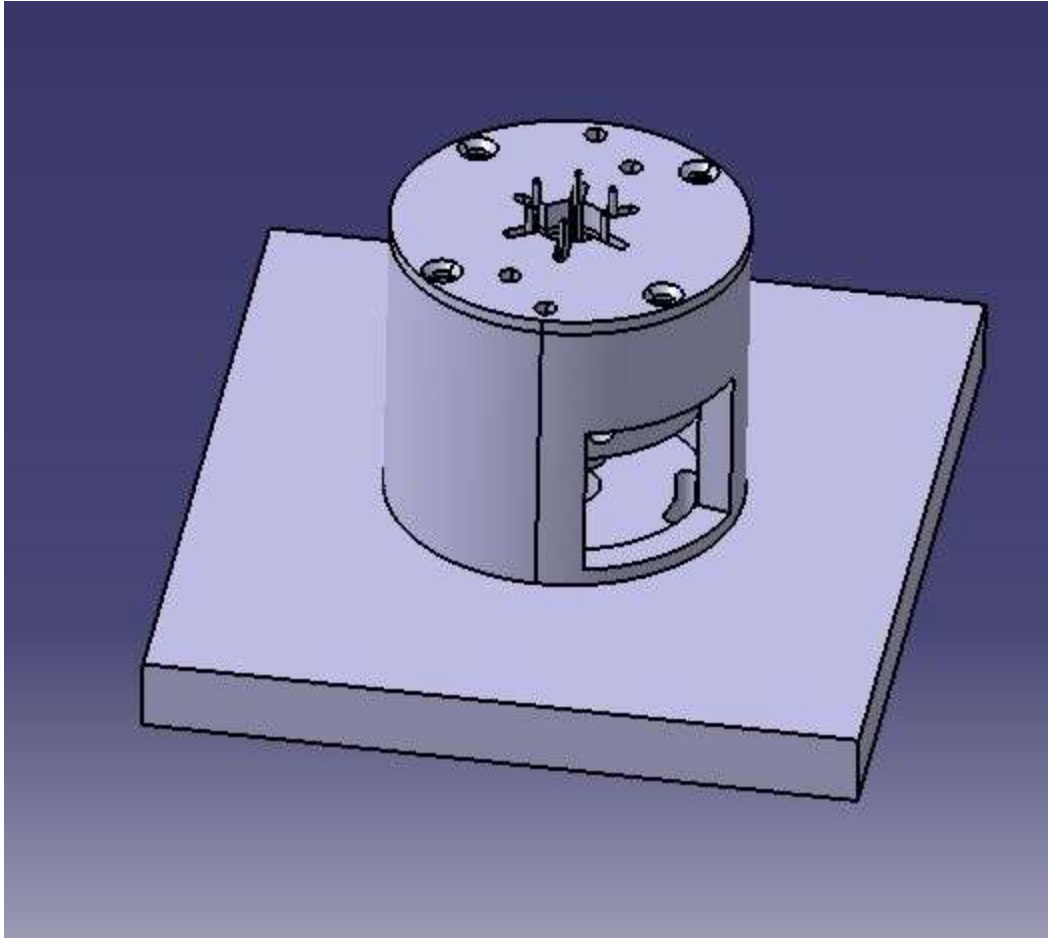

➤ 6mm Thickness  
Flange Straightning  
Mechanical Press

# Grinder Machine Attachment

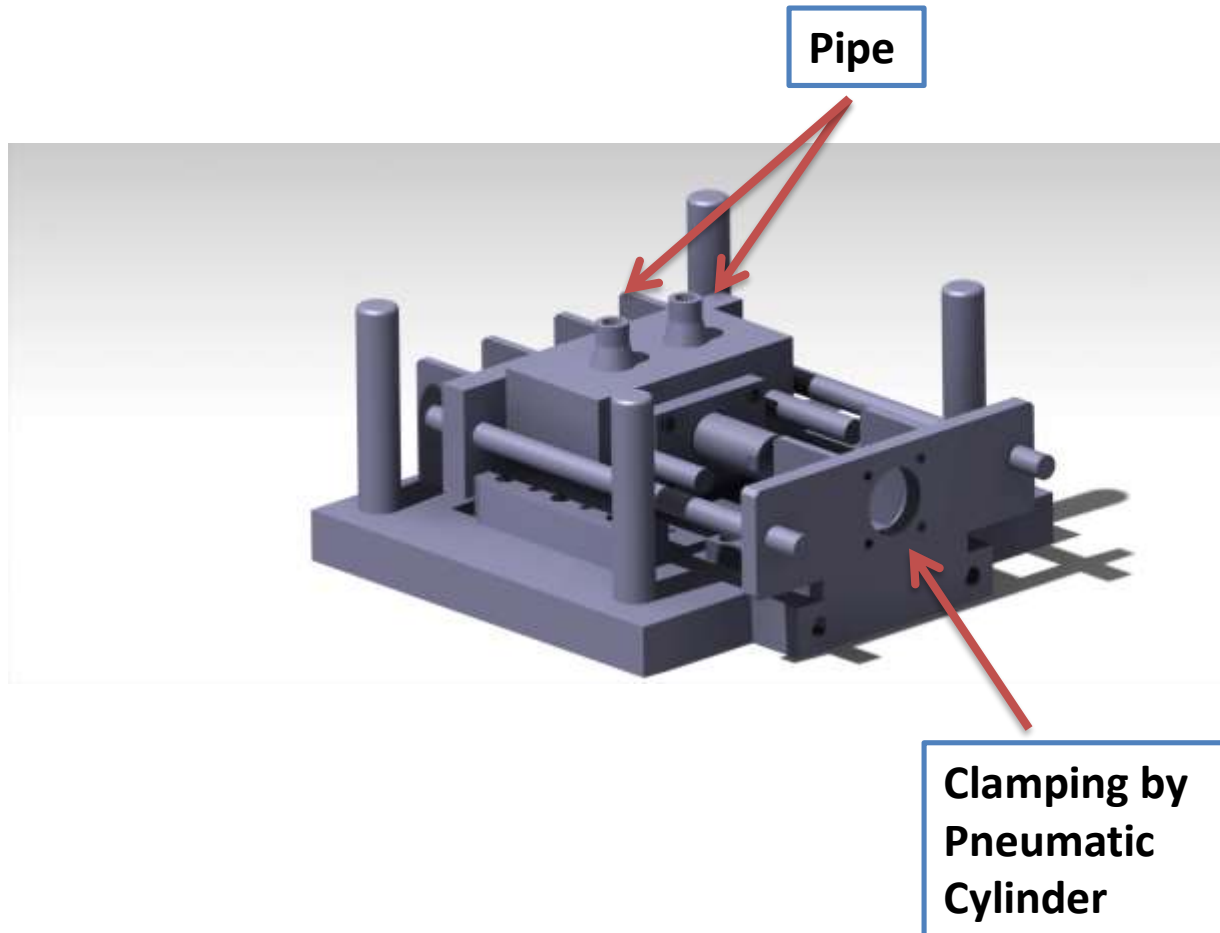

# O-Ring Fitment Tool

➤ **Manual O-Ring  
Fitment tool for  
fitting the O-Ring in  
Shaft**

# Pipe Cold Forging Die

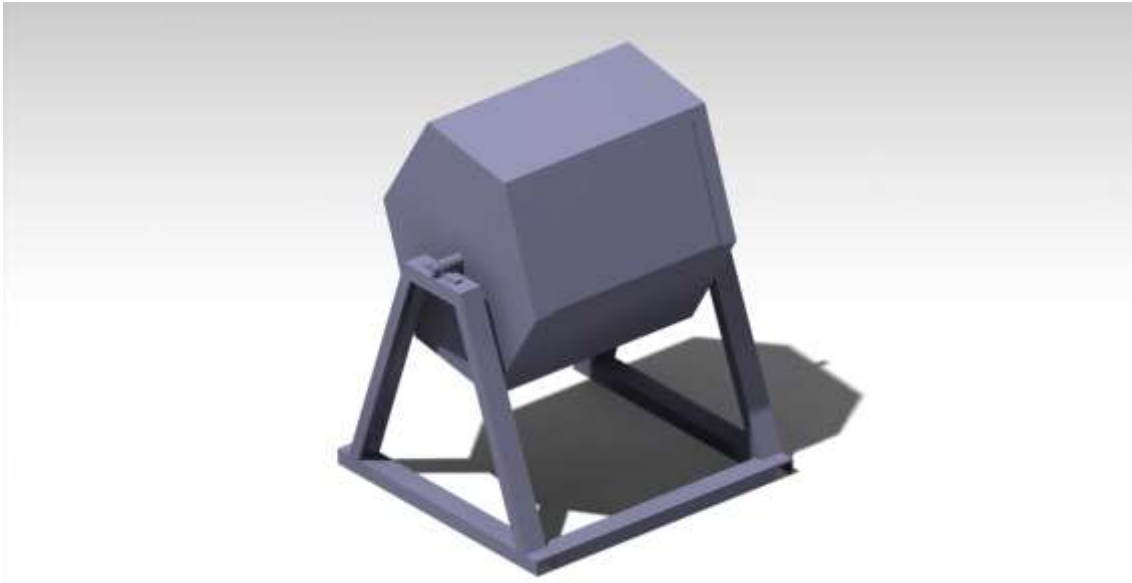

➤ MS Pipe get  
conically Cold Forged

# M24 Tap Holder at Drilling Machine

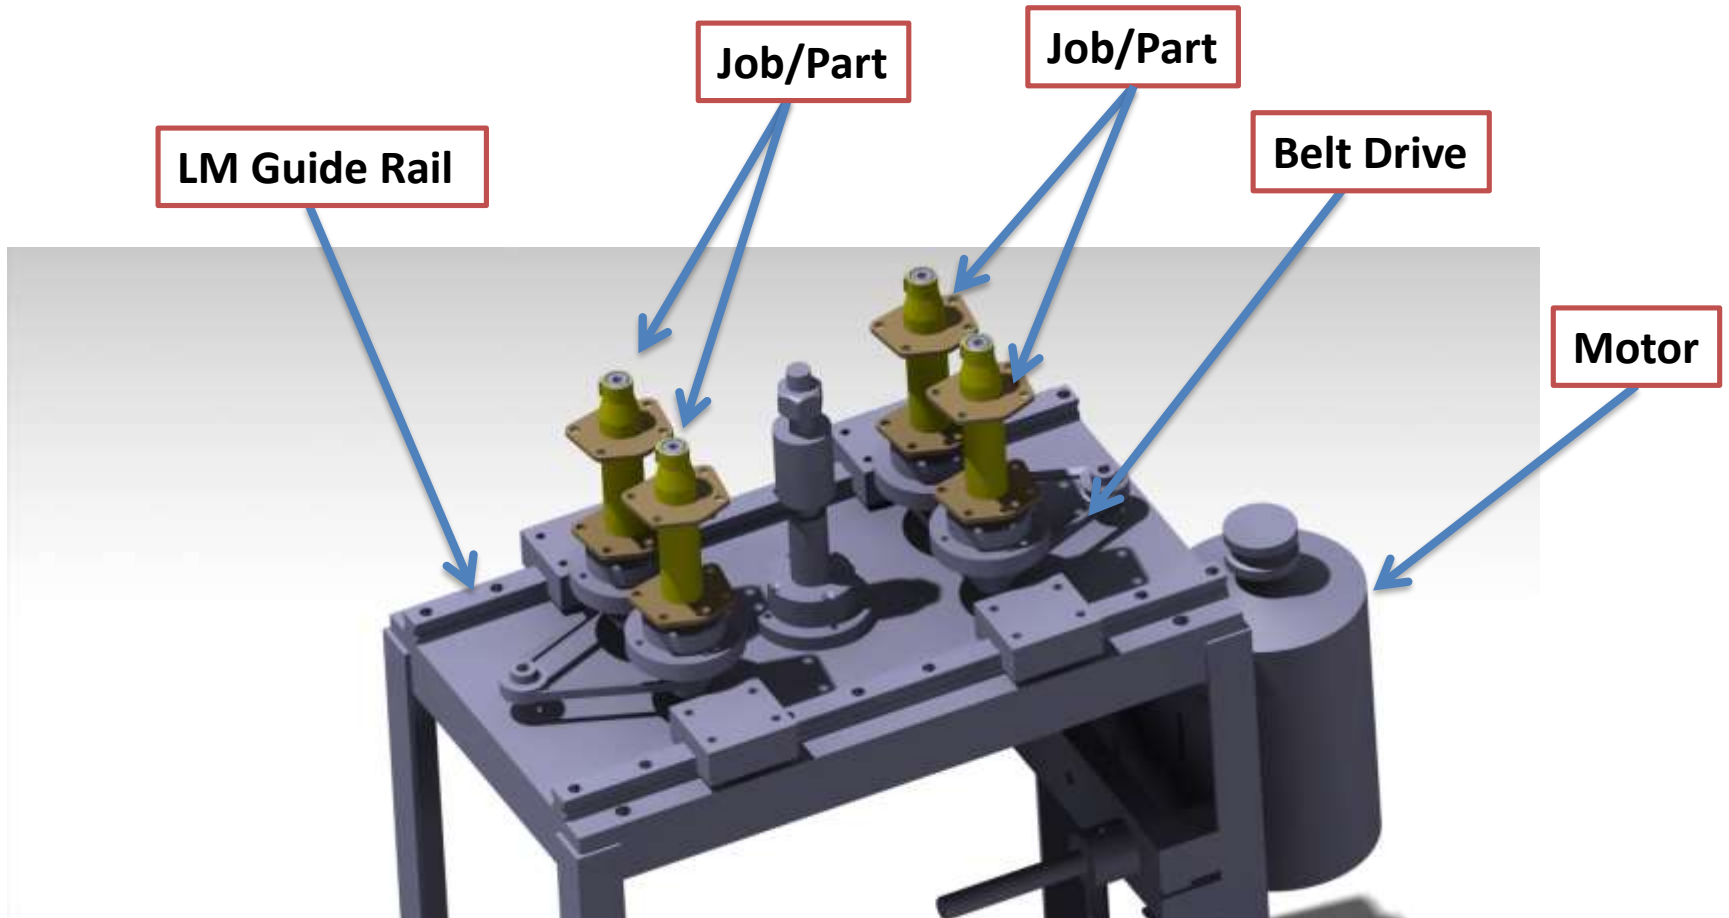

➤ Thread Tapping is done at drilling machine to avoid Tap breakage & improve efficiency

# Rotating Tumbler for Removing Burr of Small Parts

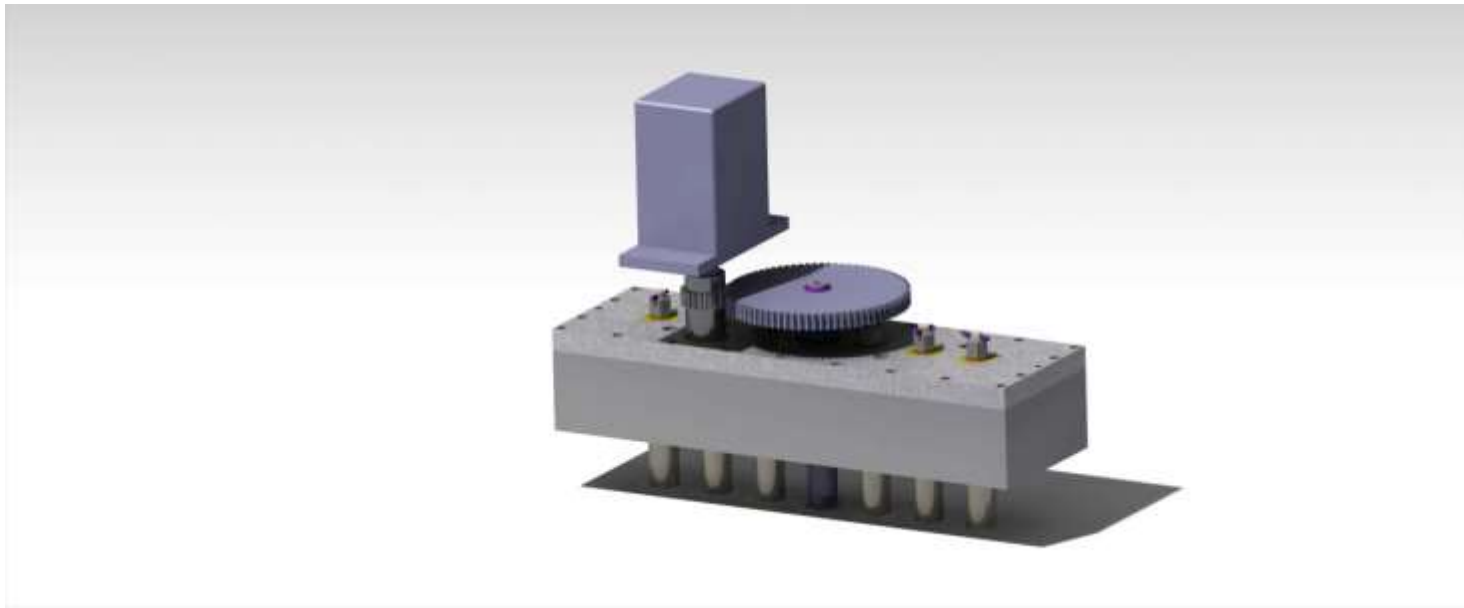

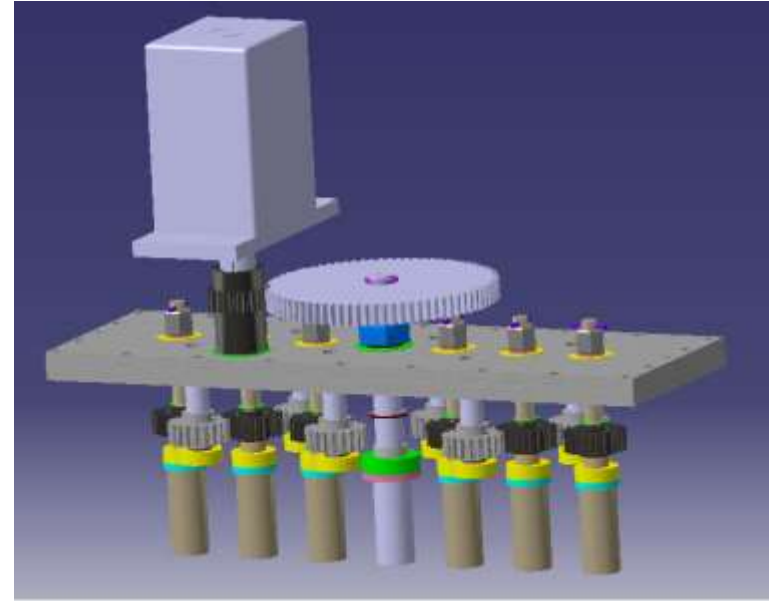

➤ Rotating Tumbler for removing Burr of small parts by rotating it in between granual particals

# Welding Spatter Removing Machine

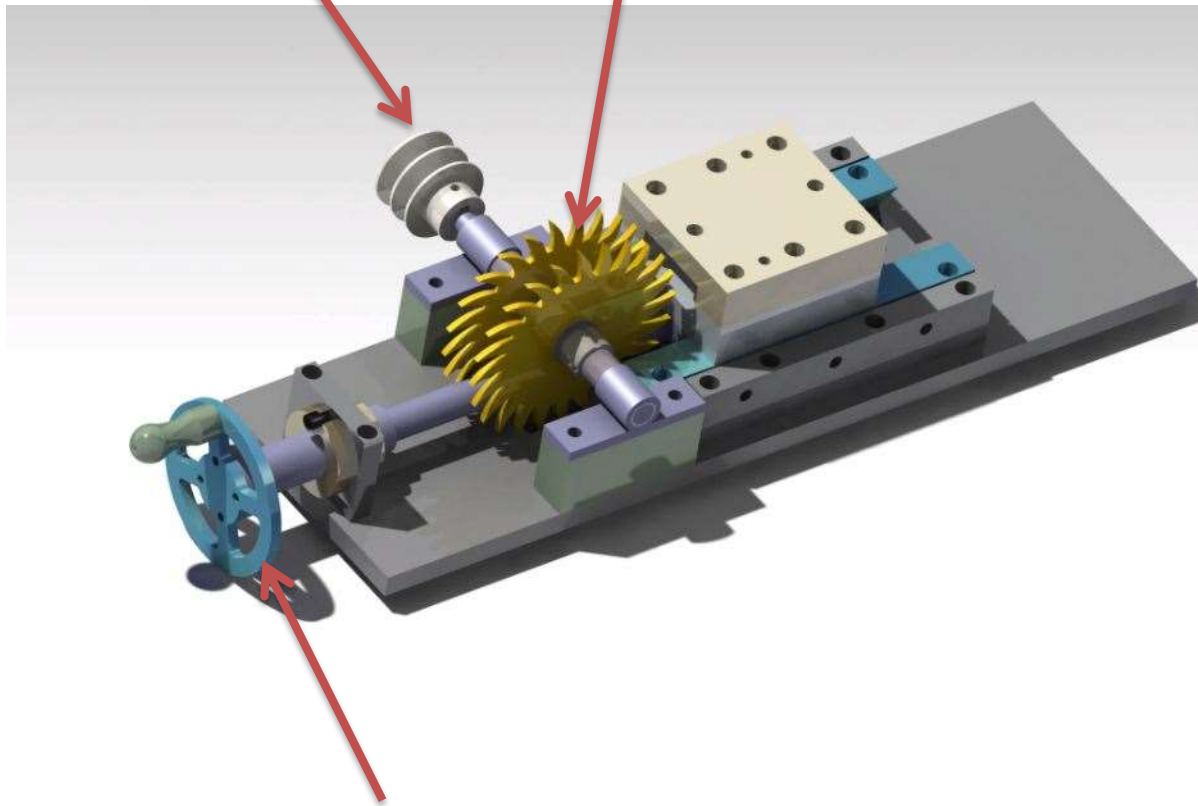

# Concept Of 7 Hole Multi Spindle for Hole Diameter 20mm Drilling

# Multi Cutter Machine

Pulley for  
Motor attachment

Cutter

Handle For Sliding Movement
